COMPANY PROFILE

Om Logistics, the flagship company of the Om Group, is a leading Indian multi-modal logistics company. It offers its clients a single-window logistics experience by integrating services across

the supply chain, from transportation to warehousing.

Based on the business principle of just-in-time delivery, Om Logistics Ltd. has established its infrastructure to support manufacturers across the world. Quick delivery, perfect organization of the flow of goods, combined with state-of-the-art IT communication systems, are the tools it operates with.

In the process, manufacturers save their capital investment by reducing the inventory cost and their customers benefit from finer rates, faster deliveries and products in perfect condition.
